

WE CAN SAVE

CALL CENTER JOBS

Thousands of customer service jobs in the United States have disappeared as corporations send more work out of New York to boost their profits at the expense of working people. **But we have a chance to pass a bill that will help make sure those good jobs stay in our communities.**

We need to let our elected leaders know that keeping New York workers employed and our communities strong should be their top priority.

CALL YOUR ASSEMBLYMEMBER:

855-980-2357 

Calling is easy and will make a real difference. Here's what you can say when you are connected:

Hello, my name is _____ and I am a constituent and union member. I'm calling to urge my Assemblymember to support the New York Call Center Jobs Act (A567) to save call center jobs in New York and keep workers employed.

The New York Call Center Jobs Act (A567) will work to stop companies from sending jobs out of state by:

- Requiring companies that intend to relocate 30% or more of their annual call volume out of New York to notify the Department of Labor.
- Ending grants, loans, and tax benefits for companies that move at least 30% of calls out of state.
- Requiring all state agencies to ensure that all business related call center work is performed by companies located in New York.
