

NO MORE OFFSHORING

DAY OF ACTION JUNE 28

1-877-775-9294

Tell the person who answers the phone to support the U.S. Call Center Worker and Consumer Protection Act (S.1792 and H.R. 3219) and the No Tax Breaks for Outsourcing Act (S. 780 and H.R.1711) to save American jobs.

Congress must act to stop companies like AT&T, Wells Fargo, and CenturyLink from sending more of our jobs overseas. AT&T has eliminated over 23,000 jobs since they got a \$21 billion tax cut windfall, and they continue to send more and more of our jobs overseas.

The **U.S. Call Center Worker and Consumer Protection Act (S.1792 and H.R. 3219)** will help stop companies from sending jobs overseas by requiring callers be told the location of the call center to which they are speaking, offering callers the opportunity to be connected to a U.S.-based call center, and making U.S. companies who of shore their call center jobs ineligible for certain federal grants and taxpayer-funded loans.

The **No Tax Breaks for Outsourcing Act (S. 780 and H.R.1711)** will stop rewarding companies that ship jobs overseas and reverses the incentives to send jobs to other countries that was embedded in the Republican Tax Cut and Jobs Act of 2017.
